

App Tutorial SnapType Pro

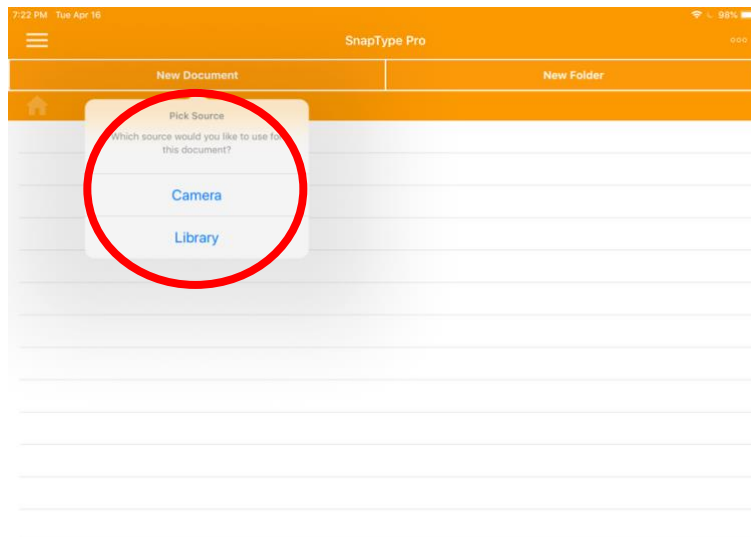

1. Open **SnapType Pro**, the icon for SnapType Pro is shown below.

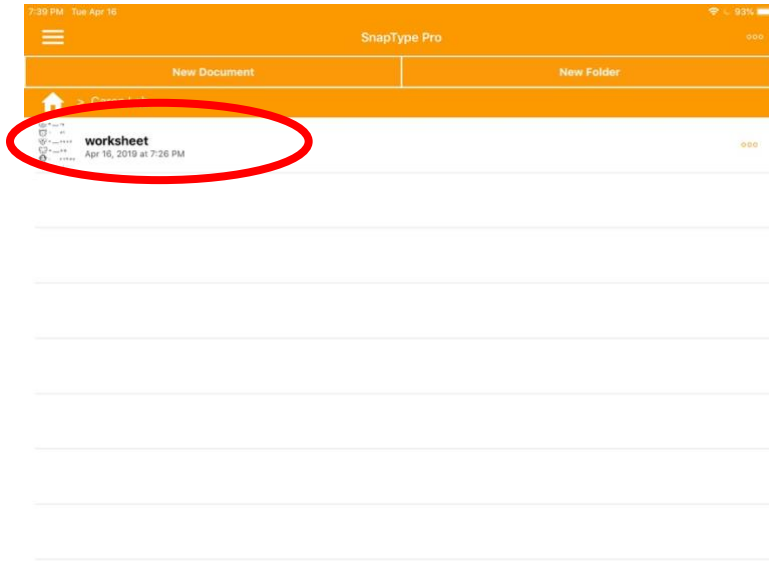

2. Click add document to add a new document or **add folder** to make a new folder. If you decide to make a folder, you can click on the folder after creation to add a document into it.

3. You can then take a picture of a worksheet with the **camera** on the device or you can select a picture of a worksheet from your photo **library**. After you select a document it will ask you to name your document.

4. Click on your document to type in it.

5. Your document will look like this. Different tools are outlined below.

Click here to save and go back to the home screen

Drag this button to change the size of typed text

Touch here to change text color

Touch here to put it in drawing mode

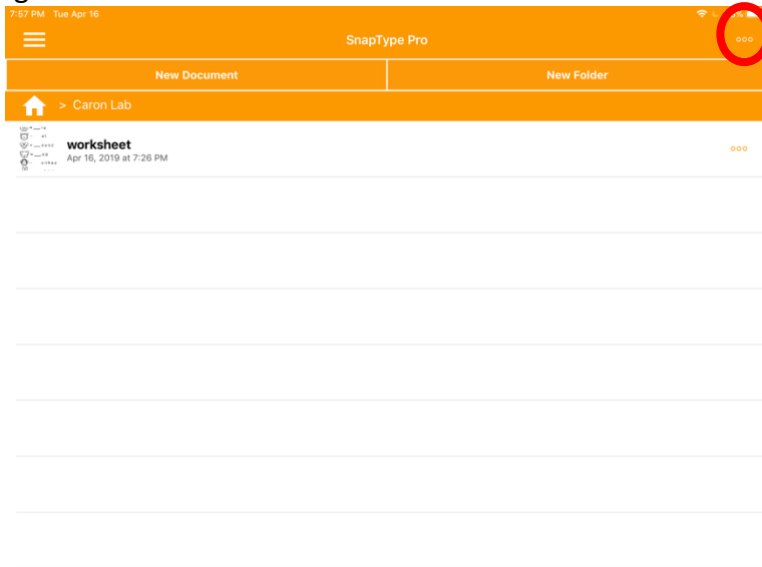

Touch here to share the document

If you don't like the location of what you've typed you can use your finger to drag it to a different spot.

Touch the picture where you want to start typing.

	=	<u>p</u>	i	g			
	=	<u>c</u>	a	t			
	=	__	o	u	s	e	
	=	__	o	g			
	=	__	o	n	k	e	y
	=	__	a	b	b	i	t

6. One you press **save** you will go back to the home screen. You can share the document by touching the **dots** in the upper right-hand corner.

7. Next **check** the document you want to share and hit the **share button** in the upper right-hand corner to email or airdrop your document.
