Manufacturing Engineer

BEDFORD, PA (<http://maps.google.com/maps?q=152+WEBER+LANE+BEDFORD+PA+USA+15522>)

[Apply \(/Recruiting/Jobs/Apply/2102162\)](/Recruiting/Jobs/Apply/2102162)

Description

Manufacturing/Production Engineers will design and sustain production processes in a high volume low mix manufacturing operation. They are responsible for designing production jigs, fixtures and equipment; also recommending solutions to production problems related to materials, processes and tooling. Primary work hours are Monday through Friday from 8:00 a.m. to 5:00 p.m., however, after hours work may be required.

YOUR RESPONSIBILITIES:

- Design jigs, fixtures and equipment using 3D software
- Evaluate and improve manufacturing methods utilizing fundamental principles of 5S, LEAN and Six Sigma
- Prepare operation/instruction manuals for new or existing processes and equipment
- Make recommendations for repair or replacement of equipment, hardware and tooling
- Assist during installation process of new jigs/fixtures/equipment; conduct operational training with teammates
- Reviewing production equipment, hardware and tooling; makes recommendations for repairs or replacement
- Understanding the influence of safety factors and applying them to designs

YOUR QUALIFICATIONS:

- Working knowledge of oxyfuel and plasma cutting, welding, machining and industrial painting required
- Experience in an automated manufacturing environment preferred
- Must have strong interpersonal, written and oral communication skills
- Experience with 2D and 3D design software
- Degree in engineering or equivalent discipline required
- Must have a positive, solution-oriented attitude!

YOUR COMPENSATION, BENEFITS AND PERKS:

We offer a competitive salary plus Gainsharing bonus program. Other benefits include PTO, medical, dental, vision, life and disability insurance, and a safe harbor 401k plan and other perks like team building events, picnics, ballgames and more!

Work Environment: This role functions in a professional office and a manufacturing plant environment. While performing the duties of this position, the Manufacturing Engineer will be exposed to fumes or airborne particles, moving mechanical parts, vibration, and industrial noise. The Manufacturing Engineer will be occasionally exposed to a variety of extreme conditions in the plant.

WHO WE ARE:

Rockland Manufacturing is a family-owned company with multiple manufacturing facilities in the eastern and central US. We design and build over 200 of the highest-quality custom attachments for heavy equipment you can buy, and it's all done right here in the USA!

If you think Rockland sounds like your kind of company, check out our website and apply today!

Rockland participates in E Verify and is an Equal Opportunity Employer (EOE)
