

Recipe Modification Project Part #3 Rubric

Supertracker handouts	2 points All SuperTracker print-outs of the standard and modified recipe are present			Missing some or all of the SuperTracker Handouts; Super Tracker handouts are incomplete
Summary of your Findings Part A	3 points Background information clearly describes why the modifications were made and ingredient changes that were made.		2 point Background is present but is vague and/or only presents 1 modification or presents > 3 modifications.	0 points Background explanation is not relevant to the project. Modifications to the recipe are not present.
Part B	4 points Clear and specific description of the differences and similarities observed between the two recipes during preparation.	3 points Descriptions are present but are vaguely described.	2 point Missing one or more characteristics that would help describe the similarities and differences between the two recipes/products during preparation.	0 point This section is not present.
Part C	4 points Clearly describes the predicted outcome and discusses if the actual outcome matched the prediction. Detailed descriptions are provided such as observations in texture, mouthfeel, appearance, volume, etc.,.	3 points Descriptions are present but are vaguely described.	2 point Missing one or more characteristics that would help describe what was observed between the prediction vs the final outcome.	0 point This section is not present.
Part D	8 points Thorough explanation of the food chemistry behind the outcomes in the “healthy food product” compared to the original recipe. Presented information is correct.	7 points Explanation of the food chemistry is there; one description is incorrect and/or is missing	5 points The food chemistry explanation is several errors and /or does not have basis in what was taught in class and or provides remedial explanation.	0 point This section is not present.

Part E	3 points Nutritional comparison is addressed	2 point Nutritional comparison provided is vague, doesn't include values, and is missing one or more of the nutrients required (kcal, sugar, fiber, sodium, total fat, saturated fat)		0 point No nutritional comparison is addressed
Part F	3 points Two items are discussed regarding the future changes that would be made to improve the recipe and how it would improve the outcome. Specific examples are provided.	2 point Items are address but specific examples are lacking.	1 point Only one item is addressed	0 point Two items are not addressed, future changes not addressed.
Spelling/ Grammar	3 points No spelling/grammar errors present.	2 points 1-3 spelling/grammar errors present.	1 points 4-5 spelling/grammar errors present	0 point 6+ spelling/grammar errors.

Total Points (out of 30):
