Table 2. Structured Codes Sorted by Device (white for Oculus GO, grey for Vive).

1. What did you like best about your virtual field trip to the Reedsville/Baid Eagle formations? 1	Question	Code	# of Lines		Fleiss Kappa
Discomfort interaction is a color fock formation. (0.92) It was a cool rock formation. (0.92) Outent interaction is a color fock formation. (0.92) Outent interaction is a color fock formation. (0.92) The TA guided you through it while pointing out important information. It was a cool rock formation. (0.92) The TA guided you through it while pointing out important information. It was a cool rock formation. (0.92) The TA guided you through it while pointing out important information. It was cool to due see the formations from an elevated view. Accessibility of the self-self-self-self-self-self-self-self-	like best about your virtual field trip to the Reedsville/Bald		4		0.92
progravirual field rips to the Recedeville/Bald Eagle formations? Elevated view The TA guided you through it while pointing out important information.		Fun	2	It was a cool rock formation.	
Recedsville/Bald Eagle formations? Elevated view 4 1 liked how I could see the formations from an elevated view. The measurements were very easy to take and I didn't actually need to write anything down which was convenient. The initial impressions of putting on a VR Headset and the diagrams within the virtual space. Convenience 6 I didn't actually have to go to the field site and that it could be completed in less time. Fun 4 It was cool to experience new tech. Content interaction 18 The guided notes explaining how to do each part of the lab. Integrated media 8 Being able to hear the instructor clearly and having examples of what he was talking about. Elevated view 5 The elevated view, it felt like I was flying. Measurement 1 I liked the measuring mechanic. Presence 7 It was really realistic, felt as if I was actually there. Image quality 9 I didn't like how the images were not very high in quality. Image quality 9 I didn't like how the images were not very high in quality. System limitations 7 I did not like that you couldn't go back and remeasure. System limitations 7 I did not like that you couldn't go back and remeasure. Accessibility 6 Staring at the screen made me a bit nauseous. System limitations 6 Camoot take notes and pictures while doing the VR. If it isn't possible to go to the actual field site, the virtual trip would allow students to still experience the field trip. Accessibility 2 I think virtual field a proach to the lab makes it easier to learn exactly what we need to learn. Convenience 13 There are no transportation costs and it is much easier to fit into a schedule. Accessibility 7 Quality and clarity of the site and pictures from the examples involved. 4 What would you change about your virtual field trips would an access the students don't feel so sick that would be very beneficial. There are no transportation costs and it is much easier to fit into a schedule. Accessibility 8 There was a way to alter the technology so that students don't feel so sick that would be		Content interaction	13	I liked the 360 view and the ability.	
Elevated view 4 I liked how I could see the formations from an elevated view. Measurement 1 The measurements were very easy to take and I didn't actually need to write anything down which was convenient. The initial impressions of putting on a VR Headset and the diagrams within the virtual space. Convenience 6 I didn't actually have to go to the field site and that it could be completed in less time. Fun 4 It was cool to experience new tech. Content interaction 18 Deing able to hear the instructor clearly and having examples of what he was talking about. Elevated view 5 The elevated view, it felt like I was flying. Measurement 1 I liked the measuring mechanic. 0.79 Presence 7 It was really realistic, felt as if I was actually there. Image quality 9 I didn't like how the images were not very high in quality. System limitations 7 I did not like that you couldn't go back and remeasure. Image quality 8 The rocks were blurry in some spots. System limitations 6 Camot take notes and pictures while doing the VR. Accessibility 6 Staring at the screen made me a bit nauseous. System limitations 7 Common sing virtual field site, the virtual trip would allow students to still experience the field trip. Accessibility 2 I think virtual field is agreed and the virtual field site, the virtual field site, the virtual field site action of actual field trips instead of actual field trips instead for actual field as a complete of a complete of a complete of anythere instantly. Convenience 13 Convenience 10 We didn't have to drive all the way out there. Convenience 11 Hinker that such as shout your virtual field rips instead on't feel so sick that would be very beneficial. 4 What would you change about your virtual field are not a should. Image quality 7 Quality and clarity of the site and pictures from the examples involved. 4 Convenience 13 Give a warning before launching a student into the air or joiling them forward. 4 What would you change about your virtual field was a student field with the complex of the		Integrated media	7		
Measurement 1 and I didn't actually need to write anything down which was convenient. Presence 2 Headset and the diagrams within the virtual space. 0.94 Convenience 6 I didn't actually have to go to the field site and that it could be completed in less time. Fun 4 It was cool to experience new tech. Content interaction 18 The guided notes explaining how to do each part of the lab. Integrated media 8 Being able to hear the instructor clearly and having examples of what he was talking about. Elevated view 5 The elevated view, it felt like I was flying. Measurement 1 I liked the measuring mechanic. 0.79 Presence 7 It was really realistic, felt as if I was actually there. Image quality 9 I didn't like how the images were not very high in quality. System limitations 7 I did not like that you couldn't go back and remeasure. Image quality 8 The rocks were blurry in some spots. System limitations 6 Cannot take notes and pictures while doing the VR. Accessibility 6 If it is virtual field trip. 3. What benefits do you think there are from using virtual field trips in the form using virtual field trips in the did trips in the content of actual field trips in the did actual field trips in the content of a ctual field trips. Accessibility 6 More streamlined approach to the lab makes it easier to learn exactly what we need to learn. 0.75 Accessibility 2 I think virtual field is a great option in case of rain. Convenience 10 We didn't have to drive all the way out there. Convenience 11 There are no transportation costs and it is much easier to fit into a schedule. Image quality 7 Quality and clarity of the site and pictures from the examples involved. 4. What would you change about your Comfort 1 students don't feel so sick that would be very beneficial. Interaction 9 dividence from the examples involved. 4. What would you change to the site and pictures from the examples involved. 5. There are no transportation costs and it is much easier to fit into a schedule. Interaction 9 dividence from the example		Elevated view	4
