

NO, I HAVEN'T FELT VERY DIFFERENT DURING THE LAST FEW DAYS, AND I DON'T REMEMBER BLEEDING ANYWHERE EITHER. MY ONLY STOMACH PROBLEM IS CONSTIPATION FROM THE IRON PILLS !!

YOU TAKE IRON, HOW LONG HAVE YOU BEEN TAKING THAT? AND NO BLEEDING, RIGHT?

THREE MONTHS YES

IT'S GOING TO BE A BUSY NIGHT!

WHICH WAY IS STARBUCKS?

MEDICAL LIBRARY

BOOKS ON IRON DEF ANEMIA

ANEMIA OF CHRONIC DISEASE BOOKS

IT'S IRON DEFICIENCY ANEMIA
HER SERUM IRON IS ALMOST
UNDETECTABLE

BUT HER FERRITIN IS HIGH,
I THINK IT'S ANEMIA OF
CHRONIC DISEASE...

YOU ARE USING INFLAMMATION
TO **EXPLAIN** ONE OF HER LABS.
I AM USING IT TO EXPLAIN
ALL HER LABS.

DON'T BE A FOOL, FERRITIN
IS AN ACUTE **PHASE** REACTANT.
YOU LACK EXPERIENCE

ENOUGH BABBLING! DISCONTINUE HER IRON FROM
THE DOMINICAN REPUBLIC AND START HER ON SOME
REAL AMERICAN IRON TOMORROW WE SHALL
FIND THE SOURCE OF HER BLEEDING, SHE'S LOSING
THE IRON SOMEWHERE. GO READ, AMATEURS!
