

Day 1 Pathology

Come

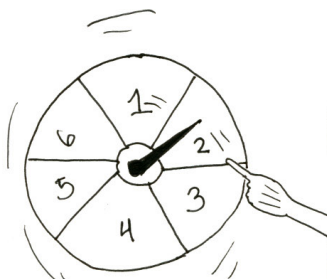

Day 2 Pathology

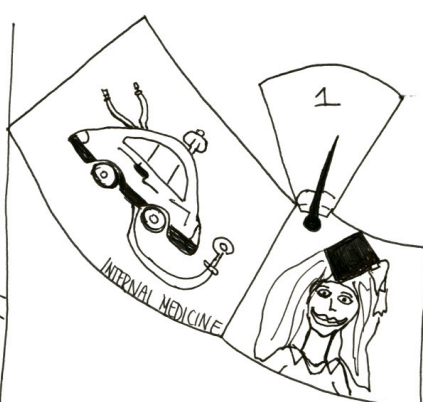

Oh, okay.
I'm ready

Let's go, Toshia!
Back to the scope,
we don't really care
too much about the
PT's social ix... we see
That's our part

End of Pathology

One more time, come on lucky spinner... give me a specialty I Love!

Sounds good.
I like your mode of attack!

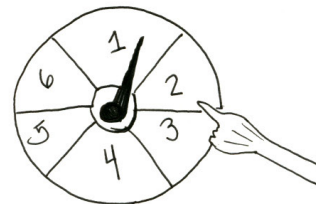

This is it, Mom. I get to prevent, diagnose, treat and manage disease affecting even organ system and most importantly, form unbelievable patient-doctor relationships every day!

Am I allowed to say
it? I knew you would
end up in Internal
Medicine - you love
pt care and the challenge
of trying to know everything

Fellowship...

Here we go AGAIN!
