FY 2020 Utilization Metrics
• 2,971 Simulation Sessions
• 23,439 Learners
• 56,713 Learner Contact Hours

FY 2020 Top Participant Types
- HMC Nurses – 9,386 (40%)
- Medical Students – 4,201 (18%)
- Residents/Fellows – 2,703 (12%)
- Attending Physicians – 1,329 (6%)
- PA Students – 1,303 (6%)
- PSU Nursing Students – 1,293 (6%)

FY 2020 Top Participant Types
- COM (MD & PA Students)
- HMC (RNs and others)
- GME (Residents & Fellows)
- PSU College of Nursing
- Attending Physicians
- Outreach and Community

Where our learners come from

24 Simulation Instructor Courses since 2007 with 330 graduates (192 from Penn State Health)

169 peer-reviewed publications since starting in 1993

8,489 people trained in American Heart Association Emergency Cardiovascular Care credentialed courses this past year

Over 100 Standardized Patient (SP) Actors

One of Five Simulation Centers in the world to hold all three major simulation accreditations
- Society for Simulation in Healthcare
- American College of Surgeons
- American Society of Anesthesiologist

2,618 Contact Hours of simulation-based education provided to external participants from other hospitals and the community as outreach this past year
