

LionPATH Updates 2-15-2017

Completed

- New student interface beta testers identified
- LionPATH sent email to beta testers welcoming them and asking for confirmation of their participation; 85 confirmed as of 2/15/2017
- UI code migrated to QNA environment for 2nd round of testers by LionPATH team
- LionPATH Acceptance (QNA) environment refreshed from production
- Summer Tuition billing setup completed and testing plan developed.

In progress

- Issues pertaining to bio-demo data from CPR
 - Over 300,000 name errors resulting from flow into CPR from other systems
 - Missing SSNs that were captured in MPS but not passed to CPR
 - Other data issues, gender, DOB
- The team continues a major knowledge transfer effort focused around Student Records
- Testing of changes to Bursar's payment priority list in testing now.
- Preparation for new student awarding in early March
- Development of part-time Dean's list query

Selected Upcoming Activities

- 2/18/17 - Census extract runs
- 2/21/17 - LEAP registration begins
- 2/23/17 - Bundle 44 applied to QNA (needed for fall financial aid awarding) testing begins)
- 2/24/17 - Provost Jones will present LionPATH update to Board of Trustees public session
- 3/2/17 - Bundle 44 applied to production; Financial Aid can start fall awarding activities. Notes pertaining to end-user impact will be posted to the website.

Issues

- On February 15, 2017 an issue was identified in the LionPATH system that does not allow undergraduate students admitted for summer to self-enroll in classes for the summer term. Resolution underway; Posted to LionPATH Known Issues: <http://lionpathsupport.psu.edu/known-issues/>
- Registration for late starting classes hindered by discontinuation particularly impacting World Campus and Great Valley enrollments; Meeting scheduled for 3/16
