

LionPATH Updates 3-1-2017

Completed

- March 1st Billing completed
- UI testing completed - numerous small issues discovered
- Bundle 44 testing completed
- Removal of old BFR holds in preparation for Fall enrollment
- Financial Aid knowledge transfer from Sierra-Cedar consultant completed.
- Course catalog multi-line display issue corrected and will migrate to production Friday, March 3 (See screen shot on next page for clarification)

In progress

- Term Activation and other preparatory actions for Fall term enrollment
- The team continues a major knowledge transfer effort focused around Student Records
- Preparation for new student awarding in early March
- Development of part-time Dean's list query

Selected Upcoming Activities

- 3/1/17 - Shopping carts open for fall 2017 registration
- 3/2/17 - Bundle 44 applied to production; Financial Aid can start fall awarding activities. Notes pertaining to end-user impact will be posted to the website.
- Student Aid awarding of new students - early next week
- 3/7/17 - Grey Heller Upgrade in Production (This update fixes an issue with file uploads and several performance enhancements)

Issues

1. Faculty Senate approved a change to Nursing degrees from a BS to BSN (Bachelor of Science in Nursing), effective 2171 (at their November meeting). New degree/plans - NURS_BSN and NURN_BSN - have been added to LP. LionPATH was unaware of this decision until this week. The team needs to figure out the implications of this change for ALL modules, processes, and interfaces. For example -- and BY NO MEANS an exhaustive list:
 - Admissions needs to stop admitting people into NURS_BS and NURN_BS, change everyone who's in progress before Matriculation, look at Transfers.
 - Records/Advising needs to look at Update Academics, messaging, Update Campus, change all the students currently in the BSs, ...
 - Financial Aid needs to see if there is anything that looks specifically at NURS_BS and NURN_BS (eSteward?)
 - Student Financials needs to look at tuition calc.
 - Reporting needs to see if there's stuff out there where people are specifically looking for NURS_BS.
 - Can Tech "easily" find code where the BSs are singled out (because these are "special" Plans already)?
2. Registration for late starting classes hindered by discontinuation particularly impacting World Campus and Great Valley enrollments; Meeting scheduled for 3/16

LionPATH Updates 3-1-2017

Course Catalog Display Modification

The sort in Browse Course Catalog should display one line per course as illustrated below. When users look up MATH 140, there should be one entry for the course in the Catalog.

140	Calculus With Analytic Geometry I
---------------------	---

When the course is selected, a chart similar to below is shown, with all appropriate campuses, Typically Offered values, Academic Group, Academic Organization, and Enrollment Requirements displayed. This will allow users to have clarity regarding campuses as related to Typically Offered values, and select the desired campus offerings.

MATH 140 - Calculus With Analytic Geometry I

Career	Campus	Typically Offered	Academic Group	Academic Organization	Enrollment Requirement
Undergraduate	Abington	All Semesters	Science	AB Abington Campus	Pre-requisite: MATH 022 , MAT
Undergraduate	Altoona	Summer & Fall	Science	AL Altoona Campus	Pre-requisite: MATH 022 , MAT
Undergraduate	Beaver	All Semesters	Science	UCBR Beaver Campus	Pre-requisite: MATH 022 , MAT
Undergraduate	Berks	Fall & Spring	Science	BK Berks Campus	Pre-requisite: MATH 022 , MAT
Undergraduate	Brandywine	All Semesters	Science	UCBW Brandywine	Pre-requisite: MATH 022 ,
