

LionPATH Updates 7-20-2017

Completed

- Completed term rollover for tuition, adjustment calendars, fee waivers, etc.
- Approved for production: a new interface to provide data for a new OUR re-enrollment form.
- Provided June's reconciliation data to Financial Reporting
- Loaded the FA17 tuition rates from The Budget Office into Production

In progress

- In conjunction with OUR, evaluation of PERC (Post Enrollment Requirement Checking) functionality.
- Modifications to final exam scheduling interfaces
- Testing first piece of automated merge code—admissions merges. We are validating that it does all the updates now handled as part of the manual process.
- LionPATH Communications Committee scheduling first meeting
- Undergraduate applicants self-reported grade functionality
- Audit of grade reporting process with internal audit.
- Disaster recovery plan
- Limited, direct database access for interface users—colleges, World Campus and TLT.
- Adding LionPATH jobs to Control-M scheduling system
- Planning for upgrade from PeopleTools 8.54 to 8.55 or 8.56, scheduled for Thanksgiving break 2017. This will require some down time and will involve the entire team though it should be transparent to users.
- Discussion of where to collect waiver data for 2018 mandatory health insurance initiative
- Student Status by Term version for Athletics – working with Erin Fisher
- Student Status by Term version for Auxiliary Services to include Pre Matriculate

Upcoming

- Calculate tuition for Fall 2017 (7/24)
- Run billing in CPY (7/25)
- Student Aid and Bursar sign off on billing (7/25)

Issues

- LDMO is handling duplicate ID processing for some groups. The responsible office now resides within the Office of Information Security rather than Penn State IT. The two groups are now meeting to work out improved processes for the future.
