

## THE MONT ALTO FACULTY SCHOLAR AWARD

This will be an annual award to recognize a faculty member who has demonstrated exceptional achievement in the area of research, creative accomplishments and scholarship during the previous calendar year. The award is a stipend of \$500.

All full-time faculty will be eligible for the award.

Winners of the award will not be eligible to receive the award again for a period of three years. Any faculty member who is interested in being considered for the award should send to the DAA by March 1 a copy of the "Research, Creative Accomplishments and Scholarship" section of his/her most recent "Annual Faculty Activity Report" along with a cover memo stating his/her interest. The selection committee will contact nominees if additional information is deemed necessary.

The award will be made for research, creative accomplishments and scholarship achieved in the single year described by this material. The selection committee will be formed by the DAA selecting four faculty members from a list of full-time faculty volunteers. The DAA will also serve on the committee and function as the facilitator.
