RESEARCH TRAINING OPPORTUNITIES AT NIH

Many students consider summer internships or postbaccalaureate training prior to applying to graduate or medical school, and the NIH has the largest training programs in the country. The session will focus on the NIH summer internships, postbac, and other undergraduate program details and requirements, including the nuts and bolts of submitting a successful application.

When: Jan 23, 2017, 7:00 p.m.
Where: 100 Huck Life Sciences Building
By: Dr. Lori Conlan, Director, Office of Postdoctoral Services and NIH Career Services Center

Interested students can register at https://goo.gl/forms/eeKMN3yE5NjkRdf43

Lori M. Conlan is trained as a biochemist, receiving her B.S. in biochemistry from Michigan State University and her Ph.D. in biochemistry and biophysics from Texas A&M University. She worked for several years as a postdoc at the Wadsworth Center, NYS Department of Health, before transitioning from the lab to focus on career issues for the next generation of scientists. Lori started as the director of the Science Alliance, an international career development program for graduate students and postdocs sponsored by the New York Academy of Sciences. She now is at the NIH in the Office of Intramural Training & Education assisting the 4000 NIH postdocs in their personal career choices. Lori is the director of two offices, the Office of Postdoctoral Services and the NIH Career Services Center. She speaks at universities and institutions around the nation on career development topics for young scientists.

This seminar is being organized through the Office of Postdoctoral Affairs, Vice President for Research and Millennium Scholars Program. Contact postdocaffairs@psu.edu with any questions.
