

Stony Brook Heights Rooftop Farm

SUMMER EXPERIENCE ON THE FARM 2019

Volunteers experience all aspects of urban agriculture and sustainable farming. The onsite Stony Brook Heights Rooftop Farm is the location where volunteers become part of the agriculture experience and where growing, harvesting and delivering produce to the foodservice department, and ultimately to patients' trays is the main goal. Volunteers will also assist in the summer kids farm-to-table cooking classes (held in July). For more information, please email:
