

Penn State In-Service Workshops In Astronomy

Black Holes Workshop

July 29–August 2, 2024

Penn State University Park, Davey Lab

A Professional Development Workshop for High School Science Teachers

- Learn about our modern understanding of black holes, both observational and theoretical.
- Content overlaps with high school physics and Earth and space science standards.
- Stipends for lodging and travel support can be provided.
- Pennsylvania teachers will receive approximately 30 hours of Act 48 credit.
- Attendance may also be possible for some middle school teachers.

**Register by April 1, 2024 at sites.psu.edu/psiwa,
where additional details are provided.**

Inquiries about this workshop can be directed to Professor W. Niel Brandt at wmb3@psu.edu.
