Title of your research project.

Faculty Research Survey and Database

Description of research. Please provide a few sentences that explain the question and the methods employed in this research project.

This community-based research project with the theme of mobilizing ideas aims to develop a faculty research database that will serve as a comprehensive resource for sharing research ideas and projects with the potential to impact and benefit the community. The database will consist of unpublished, published, and ongoing research projects that are designed to address pressing societal issues. The project could involve a collaborative effort between faculty members and community stakeholders to possibly identify relevant research topics and establish research partnerships. The database will enable faculty members to share their research findings, publications, and collaborations with the community. This is an interdisciplinary collaboration.

Did this project include Penn State students as researchers?

No

If yes to the above question, please state where it was published.

Has not been published.

What problem do you address with your research?

The problem: lack of a information available regarding past research done by PSU Schuylkill faculty.
