well this course help me a lot first it help me to find strategy to make note and my study habit , to be succesful and have a better different view of the way i was doing things. but it also help to open my self with this teacher and have a different view on my self and it helped me to see things in another way , it help me to me to find a motivation to keep going forward and not give up .

what helped me learned was going to the teacher after class , if i didnt understand something.

The effective learning techniques and conferences that I have and with this instructor helped me throughout this course.

The help I learn in this course was to be more independent and to know how to read a college back and take only the important information in Cornell notes and uses then to learn and study the material for BiSc course.

Everything.

The computer diagrams on our learning

Taking notes helped and learning different methods of notes.

I learned how to become a effective studier, also how to do time management

I do not like the Cornell Notes that we do, because I feel like it doesn't help me learn. But overall, I think Mrs. Shaffer is an amazing instructor and she REALLY cares about her student. She makes learning seem fun. I also like how she took the students' suggestion in making the course interactive!

what I liked less in this class was Cornell notes.
